

SEASONAL COLOR FALL 2022

Ascension Blue

Aqua Blue with a Dash of Diamond Purple

Not overly flashy, not too pale – instead, powerful pastel shades: we present Ascension Blue as our seasonal color for fall 2022. Based on a cool pastel light blue and boasting fascinating clarity – reminiscent of the beautiful Bora Bora lagoon – Ascension Blue invites you to linger and enjoy.

This trendy color, lasting into the fall, is characterized by lightness, and with its vivacious violet stands for sincerity, composure, and clarity.

BoroStar Special Flash Diamond Purple impressively sets the scene for this on-trend color with its fantastic violet glitter.

Catch a Gentle Sea Breeze –

We Are Now Wearing Ascension Blue

The combination of floral fragrance and aquatic freshness promises an extraordinary experience in personal care products, but this shade is also popular as a nail polish color this year. It is very invigorating to wear something new on your nails. This color calls to mind the hot summer and keeps our vacation memories fresh.

The light blue with its violet sparkle looks great with any skin tone and automatically creates a more tanned look. The light and cool color provides a strong contrast to the warm tone of your skin and revitalizes it thanks to high reflectivity and superb radiance.

Kissed by the Sea

Are you already feeling slight winter blues? Blue lipstick is possibly the most refreshing makeup trend of the winter. The blue tone with reddish shades and a purple tint goes well with lighter complexions.

BoroStar Special Flash Diamond Purple is a calcium aluminum borosilicate-based effect pigment characterized by ultra-high transparency, striking purple glitter, and multicolor reflection.
