

# IT'S ALL ABOUT THE GLOW!

CosPearl Bright Tan

## Natural Beauty Emphasized by a Captivating Deep Metal Luster

Most women want a glowing complexion, a flawless skin texture and a look of natural beauty. In addition to proper nutrition and a healthy lifestyle, there are a variety of cosmetic products that are tailored to the specific needs of the eyes, face, cheeks and mouth.

The luminous appearance of skin is caused by the reflection of light ... and this is exactly where Kuncai effect pigments offer incredible potential to enhance and heighten skin radiance.

## Flawless Finish with Shimmering Glow

Discover this natural looking warm beige with a reddish-golden hint and a brilliant shimmer, which matches skin complexions perfectly. The reflection color is reminiscent of a mixture of natural peach and golden apricot.

## Create the Perfect Look!

CosPearl Bright Tan is based on natural mica and is the perfect choice for a wide range of applications. It is also a supreme pigment for eye shadows, lip gloss and facial cosmetics.

Whether alone or in combination with other effect pigments, it allows for the creation of numerous color shades and harmonizes well with different skin tones.

## Amazingly Versatile

In decorative cosmetics, this skin-flattering metal luster pigment improves color and corrects skin imperfections by concealing pores, fine lines, and any unevenness.

CosPearl Bright Tan is most suitable for use in highlighters, concealers, foundation and blushes for perfect contouring and a fresh, youthful complexion with shimmering highlights.
